ABOUT AVANTI THERAPEUTICS:

Avanti Therapeutics develops innovative healthcare solutions that address the constantly evolving needs of patients as well as the healthcare industry. Focused solely on healthcare, Avanti Therapeutics offers a comprehensive personalized medicine portfolio to best meet these needs: innovative medicines cost saving branded generic pharmaceuticals, diagnostic tools and consumer health products. Avanti is the only start-up company with a technology platform that promises to assume leading positions in each of these areas.

At Avanti, our approach to innovation extends beyond that of many biotechnology companies. In addition to considering the possibilities for innovative medicines, we go a step further: we apply our innovative science with a thoughtful focus on patients' real-world needs and behaviors.

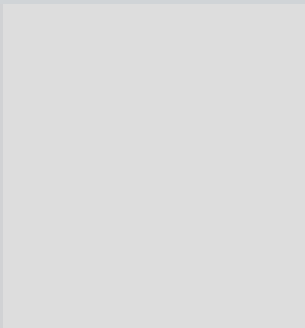

AVANTI THERAPEUTICS

Technology Platform for Product Pipelines
